

# MEMO

Message from Mike in emergency planning at NWAS. He said that you are down to do the major incident teaching exercise this weekend. he wants to confirm that you are OK to teach on PPE and 10am and help run the exercise at the airport form 2-5pm. Apparently you are going to write the scenarios but he has not seen them yet.

However, you are down to teach on an APLS course in Aberdeen from Friday which I know you confirmed last week with myself and the course director as they were desperate for faculty.

Which do you want to do?

Janet  
ED Secretary.
